NOSTRA IDEA
DI SPIRITS
C A T A L O G U E 2 0 2 5

INTRODUCTION

1492 Coloniale Group was established in 2014 as a spin-off of a leading company in the Italian beverage distribution industry.

The project has developed from its inception in two directions, within the Italian and international markets.

We import internationally renowned historical brands as well as emerging or lesser-known brands that have impressed us the most in our continuous research activities.

Our company mission also involves exporting the finest products we have selected in Italy. Therefore, we are constantly seeking international partners to explore new markets.

Refined miller and connoisseur of whisky, Mr. Camillo [il Signor Camillo] has inspired a line of **genuine, authentic and amazing Moonshine that comes from the Ligurian mountains, in particular from Sassello**. These spirits are produced from spring water and cereals that are cultivated in the fields adjacent to the distillery, then ground with natural stone, and

afterwards mashed and distilled in the Ancient mill of Sassello. They are produced by fans for fans and are conceived with the aim of rediscovering this category of agricultural distillates, produced faithful to the American tradition.

CLASSICO

Obtained by a **double distillation** and immediately hand bottled. Transparent in colour, pleasant in taste with a **citrusy approach and final sweetness**. It has already won the Gold Medal at the World Whiskies Awards 2023 in London.

CUORE DI LEGNO

Aged in steel tanks with French oak chips. Obtained by a **double distillation** and immediately hand bottled, it is bold amber in colour. **Slightly tannic flavour with scent of vanilla and final sweetness.**

CHINOTTO & MIELE

A sweet and citrusy flavoured moonshine. The base is the Wooden Heart Moonshine, but the **addition** during the infusion of **peels of chinotto** Parodi - Slow Food product - gives it bitterish notes and the **millefiori honey** allows to achieve a delicious balance.

MALACARA

MEZCAL OAXAQUEÑO

Produced following the lead of Maestro Mezcalero Armando Hernández Lorenzo in Santiago Matatlán, Malacara is made using mature agave Espadín harvested after at least 11 years. The cooking process takes place in underground wood ovens where oak wood meets glowing lava stones, and agave residues are placed on top. The grinding of the agave is done

using the traditional Tahona method. The final step is double distillation; the first is with continuous fire, and the second is slow and controlled. This particular distillation method, coupled with the Maestro Mezcalero's experience, gives Mezcal Malacara a strong character and a particularly persistent flavour.

Tinto de Mezcal is a ground-breaking product in the world beverage scene, representing the fil rouge between Mexico and Italy. It is the product of the collaboration with the Botters of Venice, a family with a long tradition of being Cooper Masters. Tinto de Mezcal is made by ageing wine from Merlot DOC

grapes from Basso Piave and Granaccia in barrels soaked with Mezcal Malacara. The ageing process can last up to six months and gives as result a unique and versatile product that can be consumed chilled or at room temperature. It is also perfect as an ingredient for cocktails.

CamüGin

with sea salt

CamüGin embodies the spirit and heritage of the place where it was born, Camogli, the enchanting marine hamlet overlooking the Paradise Gulf. The name CamüGin dates back to the ancient Genoese term used to call the inhabitants of Camogli, known as "case a mucchi" [piled houses], for generations. **Distilled using four herbs only juniper, rosemary, thyme and marjoram** - CamüGin is flavoured with

Ligurian Sea salt, which emphasizes the connection with the coastal elements of the region. The chosen herbs remind of the scents of the Ligurian hills, while the salt recalls the cool breeze of the sea and the panoramic views of the Paradise Gulf, capturing the essence of the City of a Thousand White Sailing Ships.

CAMÜGIN

It stands out for its **freshness and aroma**. It is fresh, herbaceous and characterized by a pleasant roundness on the nose. The aromatic and slightly floral notes of marjoram stand out on the palate, followed by juniper and finally by the other herbs.

CAMÜGIN NAVY STRENGTH

A **more daring and intense** version of the classic one, CamüGin Navy Strength is distilled with the same care and dedication, but **it is higher in alcohol**. Ideal for someone looking for a stronger and more decisive flavour, keeping the same aromatic notes of Ligurian herbs and a rich flavour profile.

To extract the whole aromatic complex from botanicals, Sox uses an ancient instrument originally used in cosmetics with natural products, named after its inventor, the chemist Franz Von Soxhlet. The herbs are finely hand-crushed to safeguard their organoleptic properties and are subjected to repeated infusions in ethyl alcohol within the extraction chamber of the

instrument. Cycle after cycle, the botanicals continue to release their fragrances; the essences obtained are decanted at low temperatures, filtered, and finally rested for an extended period to allow the settlement of the aromas.

SOX BITTER

Obtained with the Soxhlet extraction of gentian, rhubarb, and quassia. A balanced bitter and easy drinkability.

SOX BITTER²

The sweetness part has been minimised to make room for the herbaceous and bitter notes of Soxhlet extractions.

OPERAROSSA

BITTER

Operarossa is an artisanal bitter obtained from an original recipe studied in collaboration with Rossi d'Angera, the third oldest distillery in Italy and one of the few Italian companies that can boast the "patent of the Royal House", a distinctive symbol of the attainment of excellence. Operarossa is

characterised by a pronounced herbaceous note that makes it unique and unmistakable. It represents elegance and tradition, a true masterpiece of Italian distillery. In mixology, it gives the best of itself in the great Italian classics.

VERMOUTH GARAZZINO

Launched in 2015, it is a traditional vermouth in the manner of Turin, produced in the historic Bordiga distillery of Cuneo, based on a recipe by Davide Garazzini. It has a delicate red colour, with black cherries and black pepper as the main botanicals. The

sweet aroma and fresh acidity come from Muscat, Cortese, and Trebbiano grapes. This contemporary vermouth is designed to embody the essence of the past, being a versatile choice for both classic cocktails or a refined "glass of Vermouth".

To understand Arudi, we need to take a step back in history, more precisely in the Turin of the early '900, when it was considered the capital of the aperitif. Here, in 1916, an acute man and a noble entrepreneur named Balbo founded the Premiata Fabbrica Liquori e Vermouth Martino Balbo that, from the beginning, stood out for the spirit of innovation and began to win medals and honours. In the 1980s, the company was

closed, but Max and Mirna Bernardini, passionate and professional liquor makers from Valle D'Aosta, got interested in the factory's history and started a search among documents that led them to a rare book on liquor making, written by the flavourist Giulio Arudi, collecting the whole knowledge on liquor-making at that time.

VERMOUTH BIANCO

Golden in colour, born from a careful selection of ingredients. Besides wormwood, the main herbs are bitter orange, coriander, and lemon peel.

VERMOUTH DRY

Strong character, given by the presence of ginger. The colour between gold and copper reflects the magical atmospheres of the most genuine and intimate Turin.

VERMOUTH ROSSO

The Amber red is reminiscent of the velvets of the Turin cafes of the time. Among the main herbs are, in addition to wormwood, citrus fruits, rhubarb and elderflowers.

V54

SAMBUCA

HQ

Reflecting its Middle Eastern origins, intertwined with Arab and Sicilian culture, V54 is sweet and intriguing. It harmoniously blends powerful and tasty herbs: elderflower, coriander, cinnamon, cloves, vanilla, sweet orange peels, rhubarb, star anise, green anise, wild fennel, peppermint, thyme, and gentian. V54 is the sambuca designed to win over the sceptics.

VERTOSAN
Liquori & Distillati Alpini

Vertosan is located in Châtillon, in the central valley of Dora Baltea, between the Dora river and the Marmore stream, at the entrance to Valtournenche. The entire Bernardini family is actively involved in the company, producing liquors and distillates from updated historical recipes while maintaining their pleasant

and traditional characteristics. The sophisticated laboratory and the selection of high-quality raw materials, enable the creation of pure and bold liquors as magnificent as the land they come from.

VERTIGIN

Characterised by the presence of Genepi flowers, an authentic liquor symbol of the Valle d'Aosta region. The recipe is dry and floral, also due to the presence of elderflowers. It is a mountain product; the fragrance enhances the juniper, its floral note is genuinely inviting, and the taste is smooth and balanced.

Vertigin	Gin	656300	43°	6	70 cl	Italy

TIMO

From the infusion of wild Thyme plants and flowers (in Valdostano dialect "Sarieula"), this delicate and aromatic liquor is born with an amber colour and a soft and persistent aftertaste.

PINO MUGO

A liquor pleasant both to the eye, thanks to its warm amber colour, and to the taste, thanks to its bold and elegant flavours.

GENEPEY

Infused according to the ancient Vertosan recipe, active principles of Artemisia are extracted in hydroalcoholic solutions to obtain balsamic, herbaceous, liquor rich in flavours.

GIARDON

Named after the primary botanical, Milk Thistle, which, along with official herbs and alpine roots, creates this top-secret recipe characterising the territory since the 70s.

MADE IN ORIGINE

The production laboratory is located in the Northwest of the Italy peninsula, in Valbormida, perched on the heights of the ancient village of Cengio Alto, one of the areas with the highest forest density in Europe. Inside the laboratory, only organic raw materials are processed; officinal herbs, sugars, and grain alcohol are rigorously selected and certified, and no artificial flavours are used, preserving aromas and

tastes. Advanced technology allows constant purity research, where the modernity of the production processes is guided by the ancient visions of the alchemical tradition, always searching for an ideal balance between evocative aromas and flavours that refer to ancestral bodily memories.

GIN GINO

The alcoholic base is an organic wheat distillate, and the aromatic essences are produced in the laboratory from certified officinal herbs.

GIN GINA

The Acorus Calamus - also known as sweet flag, sway or muskrat root - gives an intriguing and mysterious aromatic intensity.

VODKA BIO

Transparent and brilliant in colour, it releases slight wheat scents to the nose. The mouth experience has a defined character with soft notes typical of cereals.

MADE IN ORIGINE

BIT

The Artemisia absinthium in the formula is grown in Cengio (Liguria), where the Origine Laboratory is located. This indigenous agricultural production joins the exotic sensations of Cascarilla bark from the tropical islands of the Bahamas, a coral archipelago of the Atlantic Ocean.

RHEUM

The raw materials in the recipe evoke the history of centuries and millennia of passages along the Silk Road and all other maritime or land routes that have allowed contact and, therefore, commercial and cultural exchange between the West and the East.

ORIGINE

MADE IN ORIGINE

MATRICARIA CHAMOMILLA

Classic meditation liquor, ideal after dinner, to be served straight in a convivial and relaxing atmosphere during the warm season, it is pleasantly refreshing.

CAFFÈ 100% ARABICA

Characterised by the unmistakable scent of coffee, with hints of wheat coming from the used alcohol. The large amount of coffee used in the preparation makes the taste of the liquor intense, sweetish, and round.

ZENZERO RADIX

Ideal for ginger lovers looking for an authentic and bold taste, intense and clear to the nose; in the mouth, it explodes in all its aromatic power given by the use of fresh root balanced in sourness with lemon juice.

Chantry Well, born from the vision of George Young, has its roots in the English aristocratic heritage. In 1872, driven by dedication and passion, the brand has zealously safeguarded the tradition of creating authentic and genuine drinks, combining cross-Channel charm with the art of mixology. Each bottle tells its own story, packaging not only the rich legacy of the Young family, but also the distinctive taste of artisanal beverages passed down through generations. The experience rich in intense flavors

and aromas offered by Chantry Well is a journey through the essence of 1872, an era that continues to shine in every sip. Rested 6 months in Ex-Porto wooden barrels. Obtained from a double distillation and hand-bottled. DiPorto is the limited edition of Moonshine 2023. Only 405 50cl bottles, signed and numbered by hand by the Master Distiller Gold Medal at the World Whiskies Awards 2023. Ruby colour, red fruit scents, and a strong presence of wood.

OLD TONIC

Quinine, expertly extracted according to nineteenth-century tradition, gives the drink a robust enveloping note.

GINGER BEER

The flavor of ginger stands out for its freshness and liveliness, creating a crisp and refreshing experience that awakens the senses with every sip.

PINKPEPPER TONIC

The recipe combines pink pepper from Indonesia and Madagascar, giving the tonic a spicy and vibrant note.
